CHAPTER 1.

IELTS VOCABULARY FOR GRAPH DESCRIPTIONS (IELTS ACADEMIC)

When you write about a graph in Task 1 of the IELTS Academic test, you will most likely be using the language of change and / or the language of comparing and contrasting.

In this first part we'll look at expanding your range of vocabulary and grammar structures for describing changes.

Exercise 1

Connect the vocabulary of change with the parts of the graph. More than one option is possible in some cases.

Rose/increased steadily	Rose/increased dramatically	Rose/increased gradually
Plummeted to/Plunged to ...	Hit a peak /Peaked at/reached a high of...	Fluctuated
Fell/dropped/shrank drastically/ dramatically / sharply	Remained flat/constant/unchanged/stable at	Dropped and then levelled off/evened out at
Hit a low of... / bottomed out at	Fell and then quickly recovered	Dipped
Soared	Rocketed	Was erratic
Fell gradually / steadily		

A-B

B-C

B-D

D-F

F

F-H

G

I-J

J-K

L-M

Definitions for some difficult words

W ord	Ex planation
Plunged	a very quick and large drop or reduction
Peaked at / reached a high of	The highest point on the graph
Hit a low of / bottomed out	The lowest point on the graph
Remained constant/unchanged/stable at... / Levelled off/evened out at...	a 'flat' part of the graph where there is no change
Fluctuated/was erratic	Increases and decreases randomly, irregularly or unpredictably
Rose/increased dramatically/Soared/Rocketed	Increased very quickly and drastically
Dipped	Fell slightly but recovered quickly

Answers

A-B *Fell and then quickly recovered / Dipped*

F *Hit a peak / Peaked at/reached a high of*

F-H *Fluctuated/ was erratic*

CHAPTER 2.

IELTS VOCABULARY FOR BAR CHARTS (IELTS ACADEMIC)

Bar Chart Language

In order to write a well-organized and structured answer for task 1 in the Academic exam, you need to show how things relate to each other i.e. by comparing and contrasting the information presented where necessary.

In most cases, you will not be using language of change to describe bar charts, so your focus will be on comparing and contrasting the information.

	Example Word	Comparative	Superlative
Words with one syllable	High	Higher	the highest
	Low	Lower	the lowest
Words with three syllables or more	effective productive popular	more productive	the most productive
		more effective	the most effective
		more popular	the most popular
		less productive	
		less effective	the least productive
		less popular	the least popular
Words ending in -y	Wealthy	wealthier	the wealthiest
Short words ending with a consonant/vowel/consonant	Hot	Hotter	the hottest
	cold	colder	the coldest
Irregular	Good	Better	the best
	Bad	Worse	the worst

2 Important Grammar Rules for this part:

1. Comparatives are made with *more* or *-er*, but NEVER both.

The weather is getting warmer. (NOT ...more-warmer.)

The game is getting more popular. (NOT ...more-popularer.)

2. Use superlatives to compare people and things with the groups or categories that they belong to.

Mary is the tallest of the five girls. (NOT ~~Mary is the taller of the five girls.~~)

James is the oldest person in the class.

Other Important Language

Comparatives and superlatives are useful to compare and contrast information, but they won't be enough in the exam.

Here are some other useful words and structures that look at differences between data:

Transitions

1. The UK consumes nearly 120 million tonnes of chocolate per year; however, it produces only 2% of the chocolate sold in Europe.
2. Spain produces large amounts of olive oil. In comparison, Italy produces very little.
3. China consumes more than a quarter of the world's meat. On the other hand, Germany consumes just 1.2% each year.

Subordinating Conjunctions

1. China consumes more than a quarter of the world's meat, while/whereas Germany consumes just 1.2% each year.
2. While Germany consumes nearly 80 million tonnes of rice per year, it produces none.
3. Although Italy produced over 6 million tonnes of olives, Spain produced almost double during the same period.

Here are some structures for discussing similarities:

Transitions

*India consumes almost 100 million tonnes of rice per year;
Likewise/ Similarly, China consumes 118.8 million.*

Other Structures

1. Both the UK and Spain produce medium levels of carbon emissions.
2. Austria produced the same amount of butter as Switzerland.
3. Wind power accounts for the same total energy production as solar power does.
4. Like Thailand, Malaysia produces 30,000 bottles.

CHAPTER 3.

IELTS VOCABULARY FOR PIE CHARTS (IELTS ACADEMIC)

You must demonstrate a variety of language in the IELTS Academic Writing exam. When describing pie charts, a variety of fractions and percentages are good. You should also use phrases to show when a number is not exact, such as 'roughly', 'just under' or 'just over' for example.

Here are some language examples to increase your flexibility when describing pie charts:

Percentage/Fraction

80% / four-fifths

75% / three-quarters

70% / seven in ten

5% 65% / two-thirds

60% / three-fifths

55% / more than half

50% / half

45% / more than two fifths

40% / two-fifths

35% / more than a third

30% / less than a third

25% / a quarter

20% / one fifth (a fifth)

15% / less than a/one fifth

10% / one in ten

5% / one in twenty

Percentage Qualifier

77%	just over three quarters
77%	approximately three quarters
49%	just under a half
49%	nearly a half
32%	almost a third

**Percentage proportion / number / amount / majority /
minority**

75% - 85%	a very large majority
65% - 75%	a significant proportion
10% - 15%	a minority
5%	a very small number

Exercise: Pie Charts which Compare Past and Future

Use the lists of words above and the prompts below (1-3) to write your own sentences. Add the relevant data in brackets and change the verb tenses accordingly.

1. High-speed transport account for (20%) traffic volume in 2015 while in 2050 forecast represent (45%).
2. Estimate proportion success rate 2025 (35%) in contrast to (63%) 2015.
3. in 2006 laptops make up bulk devices (94%) used but 2020 this forecast drop to (20%)

1.
2.
3.

Answers:

1. *High-speed transport accounted for 20% of traffic volume in 2015 while in 2050 it is forecast to represent 55%.*
2. *It is estimated that the proportion of success rate will fall to 35% in 2025 in contrast to 63% in 2015.*
3. *In 2006 laptops made up the bulk of devices used (94%), but by 2025, this is forecast to drop to 20%.*

CHAPTER 4.

IELTS VOCABULARY FOR TABLES (IELTS ACADEMIC)

Tables can look scary if you don't know where to start, but the description of a table is exactly the same as a line graph if the table is measured over time. If the table is not measured over time, then we would use exactly the same description as with a bar chart that is not over time.

It's easier to appreciate the trends and patterns in the line graph, but if you can see the changes in the table, then the description is exactly the same.

When you start the task, you must look for data that you can group together, as you would do in any other description.

You should always start with the most interesting information (often the biggest things) and leave the least interesting data until the end of the description.

Exercise 1

Re-phrase sentences a-i using the vocabulary in the list below. You can make any necessary changes. There are four expressions you won't need to use.

The bulk of

Answers:

The diagram **illustrates** the water cycle. Firstly, water **evaporates** from the **Ocean**, rises into the atmosphere, cools and condenses into rain or snow in clouds, and falls again to the surface in the form of rain and snow (precipitation). The next stage shows the water's journey after falling to the ground, **which** ends with **salt water intrusion**.

In the first stage of the **process**, water, approximately 80% of which comes from Oceans, **evaporates** into the air as a result of the heat of the sun. After **this**, the water vapour condenses to form clouds. An **estimated** 80% of the water vapour comes from Oceans.

In the next **stage**, as clouds accumulate condensation they produce precipitation in the form of rain and snow. A large part of the water from the precipitation falls into lakes or is **absorbed** by the earth.

Part of the groundwater then **flows** back to the ocean without reaching the impervious layer through surface runoff.

Finally, Ocean water flows (seeps) through to the freshwater aquifers during the process is saltwater intrusion.

Answers:

Nobody would dispute the fact that many programs on television include violent scenes, especially action and horror movies. I hold the view that they should not be allowed, however many people disagree with this opinion. In this essay, I will discuss both sides and give reasons for my opinion.

Firstly, research suggests that people who watch violent programs and play violent computer games may worry more about their own safety, which can lead to problems in society. For instance, when people are worried about their safety, they are more likely to react aggressively towards strangers. Secondly, few people would contest that some children copy what they see on television and in computer games. Hence, if they are watching and interacting with violence on a daily basis it is likely that they will copy this type of behavior. Finally, there are more beneficial activities that children could be participating in such as playing a sport or reading a book.

However, there are those who argue that violence is not something we learn from television and computer games. For example, nobody would contest the fact that there were murders before television and videogames were invented. In addition, it is often claimed that children cannot watch violent programs and play inappropriate videogames easily. For instance, there are restrictions for some programmes and games, and many parents do not allow their children to watch television after a certain time.

To conclude, although there are some reasonable arguments against higher restrictions on violent videogames and programmes for children, there can be no doubt that the potential disadvantages of children copying what they see and hear in these

programmes and games far outweigh the advantages of having free access to them. Furthermore, current restrictions are ineffective and easy to ignore. **Therefore**, governments and local institutions should do more to promote alternative activities and to engage young people in their local communities from an early age.

Synonyms of “Argument”

The words in the box below are all useful examples of words like ‘argument’, which you can use with the word ‘this’ (or ‘these’ in plural) to specify more information.

analysis	approach	concept	context
data	definition	environment	evidence
factor	function	interpretation	issue
measure	method	period	policy
principle	procedure	process	research
response	sector	structure	Theory

Here is an example of how we can use this structure in an essay.

There is no doubt that corruption is the most important point to focus on, because it originates from positions of power. Corruption can take many shapes and forms, such as political, which involves crimes in a country’s legal system and within the police, and economic, for example by misusing tax money. All the evidence suggests that countries with corrupt governments are not able to develop as fast as countries where there is less corruption.

These factors [...].

OR

This negative environment [...].

The first sentence of a paragraph is vital, as it shows how it connects with the overall structure, and can signal what will happen next.

When you practice writing, always check that your essay is logical by underlining the most important sentences in each paragraph. You should be able to understand the whole essay only

by reading those sentences. If you can't, you need to make changes.

Reference pronouns:

Reference pronouns like this, that, they or it are commonly used to refer back to something or someone recently mentioned.

Relative clauses:

Relative clauses can be used to give added information to a statement and they allow you to link ideas together in well-formed sentences.

Substitution:

Other forms of cohesive devices include things like substitution. This is where you use a synonym for example to refer backwards or forwards to a connected point in the text.

E.g. Replacing a verb phrase:

The management team at J & J Retails were very happy with Mary, and so were the rest of the staff (and the rest of the staff were also very happy with her).

Using paragraphs and a variety of cohesive devices effectively will help you score well in the “Coherence and Cohesion” and “Task achievement” parts of the assessment criteria. **Tip:** When you're reading, make a point of looking out for cohesive devices like the ones we've looked at in this section.

Now look at the sample answer for the question we looked at earlier in this section. Pay special attention to the language and structure used.

Sample Answer

Dear Sir/Madam,

I would like to express my dissatisfaction with the poor standard of service we received during our recent visit to Dino's Bar. Firstly, the staff were generally quite rude and unhelpful, they seemed to lack basic food knowledge and they did not seem interested in the job. For instance, none of them could offer any advice to me on choosing a dish.

A further cause for complaint was that the food was cold when it arrived to our table. I understand that it was a busy night, but, we booked the table and the menus the day before, so I feel that they should have been ready.

Finally, not only did we receive substandard food and unfriendly, unhelpful service, but we were also charged full price for our meals after we complained. In my opinion the prices seem to be very expensive for the

quality of the food and the service provided.

I do not usually complain, but, as a loyal customer, I hope you will be interested in my comments. Perhaps it would be appropriate to offer some training courses to staff at Dino's Bar, in order to avoid this from happening again. I feel that customer service was a big issue, as was the quality of the food. If these two problems were fixed, then price might not be such an issue in the future, as customers would be happy to pay little more for a better experience. I hope you will take these points into consideration

I look forward to your reply.

Yours faithfully,

8.4 Formal Letter IELTS General Exam Checklist.

When you have written your letter, check:

1. It is a formal letter
2. It includes all the information necessary
3. You have asked all the questions you need to
4. The questions are correctly formulated indirect questions
5. The letter is divided into paragraphs
6. You have checked the letter carefully for mistakes

Formal Letters: Language

Letters can be anything from very formal to very informal. The IELTS General Writing paper will never ask you to write a specialized business or legal letter requiring a professional knowledge of business words, structures and expressions. However, they might ask you to write a formal, a semi-formal or an informal email or letter.

In this section of the chapter, we will focus on your use of language and in particular, your ability to create a formal register. This will help you to do well in two of the assessment criteria: language of course in terms of using a range of formal vocabulary and grammatical structures and communicative achievement by being able to create an appropriate formal tone that has a positive effect on the reader. We will identify some of the features of formal English that we often find in formal letters.

At the end of this section you will find a list of useful formal-informal equivalents. This list will save you a lot of time in your preparation for the exam. For example, in a letter of complaint: “*I was rather disappointed*” is a formal way of saying “*I was furious*” or “*I was very angry*”. See how many more formal and informal equivalent items you can learn next.

Exercise 1:

Transform the informal or semi-formal version of each phrase from a letter of complaint into a formal style. You can make small changes to the content of the sentences if you think it's necessary and you can use a dictionary.

Example: I thought I'd write = I am writing

a. state of the playground =

.....

b. I have noticed loads of rubbish =

.....

c. I reckon =

.....

d. The teacher I'm talking about =

.....

e. On top of this =

.....

f. a load of problems =

.....

g. You could =

.....

h. stop =

.....

i. What's more =

.....

j. better =

.....

k. To finish =

.....

l. I'm looking forward to hearing from you =

.....

Answers:

- a. state of the playground = condition of the playground*
- b. I have noticed loads of rubbish = There is a great deal of litter*
- c. I reckon = It is my opinion that...*
- d. The teacher I'm talking about = The teacher in question OR The teacher I am referring to*
- e. On top of this = Furthermore*
- f. a load of problems = a number of problems*
- g. You could = it may be possible for you*
- h. stop = prevent*
- i. What's more = In addition*
- j. better = more suitable OR more adequate*
- k. To finish = In conclusion*
- l. I'm looking forward to hearing from you = I look forward to your reply OR I look forward to hearing from you*

Exercise 2:

Now here are some full sentences from formal letters. Complete the sentences using only one word.

- a. I am writing in to your job advertisement in the ABC newspaper
- b. I would like to for the position of translator.
- c. I am to come for interview at any time convenient to you.
- d. I would be if you could send me further information regarding the position.
- e. Please find my CV
- f. I would like to express my with the poor standard of service we received during our recent visit to your cinema.
- g. For, none of them could offer any advice to me on choosing a dish.
- h. Finally, not only we receive substandard food and unfriendly, unhelpful service, but we were also charged full price for our meals after we complained.
- i. I look forward to your reply.

Answers:

a. I am writing in reply/response to your job advertisement in the ABC newspaper

b. I would like to apply for the position of translator.

c. I am available/ able to come for interview at any time convenient to you.

d. I would be grateful if you could send me further information regarding the position.

e. Please find my CV attached (email)/ enclosed (letter).

f. I would like to express my dissatisfaction with the poor standard of service we received during our recent visit to your cinema.

g. For instance, none of them could offer any advice to me on choosing a dish.

h. Finally, not only did we receive substandard food and unfriendly, unhelpful service, but we were also charged full price for our meals after we complained.

i. I look forward to your reply.

Use of the Passive (Sometimes)

Okay, the next example is one where the passive has been used instead of an active form. This is a common feature of formal writing but should not be overused.

This sentence is an example of how we might structure a sentence formally.

Informal: *“The waiter did offer us another dish, but when it arrived it was cold again.”*

Formal: *“Although we were offered an alternative dish, when it was delivered to the table it was cold again”.*

Notice two clauses in the informal version are joined by *but* whereas in the formal version, the two clauses have been reversed and *but* is replaced with *although* which starts the sentence. This is a more formal way of saying the same thing.

Within the formal sentence *“Although we were offered an alternative dish, when it was delivered to the table it was cold again”*, there are further examples of vocabulary that is more formal than the equivalent in the informal version. For example, *alternative dish* is a more formal way of saying *another dish*.

As we saw above, phrasal verbs are most typical of informal letters — although there are some which have no more formal equivalents and are common in all types of letter (*look forward to*, for example). Most phrasal verbs, however, do have formal equivalents and these would be preferred in most formal letters whereas the formal equivalents would be very rarely used in an informal letter.

6 Quick Rules of Formal VS Informal:

1. We tend to understate our feelings and would say *I was rather disappointed* or *I was somewhat surprised* instead of saying how we really felt.
2. For the same reason, we do not use exclamation marks.
3. We often use the passive to emphasize the action when the person is of less importance
4. We avoid contractions in formal letters.
5. We use formal equivalence of idiomatic language and phrasal verbs
6. Particular sentence structures can be used to create a formal tone. Inversion is one example of this “Although we were offered an alternative dish, when it was delivered to the table it was cold again”.

Exercise 3:

Rewrite the following sentences using formal equivalents for the phrasal verbs. Use a dictionary if necessary. You might need to make other changes to the structures.

1) I'm so chuffed that you've been talked into coming to the meeting.

.....
.....

2) The football club's facilities have been done up, so this should make our performances better.

.....
.....

3) As our town is quite cut off, perhaps we could arrange for you to be put up in a hotel in the city for a few days.

.....
.....

4) We will make up for the inconvenience of having to wait for so long.

.....
.....

Answers:

- 1) *I am very happy that you have been convinced to attend the meeting.*
- 2) *The football club's facilities have been refurbished, which should improve our performances.*
- 3) *As our town is quite isolated, we could arrange hotel accommodation in the city for a few days.*
- 4) *We will compensate you for the inconvenience of having to wait for so long.*

8.5 Informal Letters

The informal letter is going to be very friendly, very relaxed, very easy language.

LET'S START WITH A TYPICAL TASK.

An English-speaking friend is visiting your region for a couple of weeks during his holidays and has written to you to ask for several recommendations.

Write a letter to your friend.

In your letter you should:

- offer to help find accommodation
- give advice about things to do
- provide information about what clothes to bring..

In this type of task, you should begin your letter as follows:

Dear ... your friend's name.

A few things to keep in mind.

- You have about 20 minutes to write this.
- You should have at least 150 words. Aim for about 180 (a little bit more but don't go too long- If you're over 240 words, you've written much more than you need to.)
- Address the points, have your opening and closing and that's it!

Let's start with the general idea of what you're trying to do, what you're trying to accomplish.

The tone:

‘The tone’ of the letter means how your letter sounds, or the overall feeling it gives the reader. It should be very relaxed, very informal, this is what the examiners are looking for.

For example: if you're writing to your friend, write it as though you were speaking to your friend; very casual.

You can start with:

Dear- Hello- Hi and then the person's first name, never their surname.

You shouldn't use *Mr., Mrs., Dr.*

Do not put first and last name because you do not address your friend or family member by his or her first and last name in real life.

Use contractions:

Now contractions are suitable. So in terms of how you're going to use I've, it's, don't etc., In a formal letter, you say do not whereas in an informal letter, you say don't.

Slang and idioms

Not only are slang and idioms okay now, they're actually recommended because they demonstrate that you can adapt your language to different contexts. When you speak with your friends, you normally use very casual language including slang and idioms.

Nevertheless, remember it has to be natural, so don't be too heavy on the slang or the idioms. One or two here and there are great, but if you overuse them, it becomes unnatural and the examiners may penalise you for it.

Note that you can use idioms in your formal letter as well but very carefully, very selectively and it has to be very appropriate, so it's generally not recommended.

Stay organized and focused:

You still have to remember what it is you're doing and make it very clear in the letter. Are you thanking the person, are you answering a question, are you asking for something, are you offering advice? Make this clear right away in the introduction. Make sure the body follows.

Language

Again, you don't want to use very serious language in an informal letter or email, you don't want to use too many formal or complex words because that's not how we speak to friends and family normally.

With our friends we're usually very casual and relaxed.

For example:

I just wanted to say thanks for helping me out last week.

In a formal letter, you would write

I'm writing to express my appreciation and gratitude for your assistance with last week's matter..

Notice the different feel of the two sentences. One is very casual, one is very formal.

Another example:

Should you require any further information, please do not hesitate to contact me - formal.

Versus

Let me know if you need anything else - super casual.

To make your letter look real, the best thing you can do is ALWAYS rely on your personal experience.

Formal VS Informal Language List:

It is vital that you can distinguish between formal and informal language in English, not only for this exam, but also for communication in general.

Writing a letter or email to a friend is obviously not the same as writing a letter of recommendation for a friend who has applied for a job. Here are some examples of formal and informal words with the same meaning,

VERBS:

FORMAL: INFORMAL

to depart: to go

to carry out: to do

to provide: to give

to retain: keep

to cease: stop

to seek: look for

assist, aid: to help

liberate: to free

obtain: to get

to desire: want

request: to ask for

to function: work

to demonstrate: show

to reside: live

require: need

OTHER WORDS:

FORMAL: INFORMAL

subsequently: next / later

immature, infantile: childish

sufficient: enough

further: more (information)

hence, therefore: so

deficiency, lack of: little, there is no

perspiration: sweat

inexpensive: cheap

CHAPTER 9

IMPORTANT PHRASAL VERBS FOR IELTS

What is a phrasal verb?

Phrasal verbs are a group of two or more words which perform the same function as another verb. A phrasal verb is a phrase that is made up of a main verb and an adverb, a preposition or both. They are idiomatic ways of expressing an action. Think of it like a sandwich:

[Main Verb] + adverb/preposition/adverb and preposition = phrasal verb

Phrasal verbs are unique to English and other Germanic languages and can cause issues for English learners. They can be transitive (they take a direct object), intransitive (they do not take a direct object), separable (they can be separated) and inseparable (they cannot be separated). We will cover the differences between these, complete with descriptions and exercises, later on.

Although the meanings differ, phrasal verbs are conjugated just like main verbs. For example, to break down conjugates like to break:

The car breaks down.

The car broke down.

Here are some common phrasal verbs to get you started:

Phrasal Verb bring up

Example *He brought up the fact that I was too short to go on the rollercoaster.*

Meaning: to mention a topic

Phrasal Verb call off

Example *She called off the wedding.*

Meaning: to cancel

Phrasal Verb carry on

Example *The bag was heavy and my feet hurt, but I carried on with the walk.*

Meaning: to continue

Phrasal Verb deal with

Example *I can't deal with stress.*

Meaning: to handle

Phrasal Verb end up

Example *They ended up in Sheffield.*

Meaning: to reach a state or place

Phrasal Verb fall through

Example *Our plans to meet for coffee fell through.*

Meaning: to not happen

Phrasal Verb get on with (something)

Example *She was busy, so I got on with my essay.*

Meaning: to continue to do

Phrasal Verb hand in

Example *I handed in my thesis.*

Meaning: to submit

Phrasal Verb join in

Example *She joined in the conversation at the party.*

Meaning: to participate

Phrasal Verb keep up with

Example *My boss talks too fast and I can't keep up.*

Meaning: to stay at the same pace or level.

Phrasal Verb let down

Example *She was supposed to collect me at 6:00 but she didn't. She really let me down.*

Meaning: to disappoint

Phrasal Verb look forward to

Example *Are you looking forward to your holiday?*

Meaning: to be excited about something, to anticipate something good.

Phrasal Verb mix up

Example *I can't tell the twins apart; I always mix up their names.*

Example *I kept putting it off, even though I knew I had to do it*

Phrasal Verb rule out

Example *We know it wasn't John who ate Sarah's pasta, so we can rule him out*

Meaning: to eliminate

Phrasal Verb stick up for (someone)

Example *Catherine was always getting bullied, so Alex stuck up for her.*

Meaning: to defend

Phrasal Verb think over

Example *Janine told Roger that she would have to think over his proposal.*

Meaning: to consider

Phrasal Verb work out

Example

- 1. It's important for your fitness that you work out three times a week.*
- 2. The Maths problem was difficult but I eventually worked it out.*

Meaning:

1. to do physical exercise
2. to solve a problem

Do phrasal verbs make any sense?

If you analyze them logically, no.. However, let's try to find some logic....

The meanings of phrasal verbs are not immediately obvious, for example:

Tom broke up with Jenny.

Tom separated from Jenny.

We know that Tom did not break Jenny into small pieces, he stopped being her boyfriend. This is an example of a phrasal verb not being directly linked to the meaning of its main verb.

However, sometimes with phrasal verbs we can work backwards to understand the logic of them. Breaking something does not have to be completely physical, it can also be figurative. The idea is that you are breaking a bond between someone. Because of this meaning, we can also use to break up to mean:

- Separate people from fighting: I had to break up a fight.
- A poor connection: I tried to call her but the line kept breaking up.

At first glance, you may not see a link between to break and to break up, but when you work backwards and think figuratively, the meaning becomes clearer.

How will I learn them?

As with any item of vocabulary, you will have to learn them individually. The more English media that you consume, the more phrasal verbs you will learn.

TASK 1

Try to match the phrasal verbs below with their synonyms:

Phrasal Verb *Example*

a. throw away *John threw away his apple core.*

b. look into *Sarah looked into the murder case.*

c. get away with *The robber got away with the crime.*

d. use up *Use up the washing-up liquid before you buy another bottle!*

e. run out of *My phone ran out of battery.*

Meanings:

1. use completely
2. exhaust supply
3. investigate
4. discard
5. escape blame

Check your answers at the bottom of the next page.

When can I use Phrasal Verbs?

Phrasal verbs are used in non-formal situations. You will hear them used in speech on a daily basis, in emails between friends, and in some magazines. They are becoming more and more prevalent, but there are certain situations where you should avoid using them:

- Formal letters or emails.
- Academic papers or presentations.

TASK 2:

In the following email, underline all the phrasal verbs that you can find and write their meanings below. You may need to use a dictionary.

Hi Jack,

I'm sorry that I was late to work today. My car broke down yesterday, so I took the bus instead. However, the bus was held up in traffic! It seems that everyone was going to work at the same time!

Don't worry about the project, I'll be able to catch up with the rest of my colleagues. I'll drop by the office on the weekend and see if there is anything extra that I can do.

I hope you've got over your cold, I hear it's been going round the office recently.

Best wishes,

Gary

CHAPTER 10

TYPES OF PHRASAL VERB

There are 4 types of phrasal verb:

Transitive phrasal verbs

Intransitive phrasal verbs

Separable phrasal verbs

Inseparable phrasal verbs

Transitive and Intransitive Phrasal Verbs

There are two types of verbs in English: Transitive and Intransitive. Transitive verbs take a direct object, whereas intransitive verbs do not.

Transitive phrasal verbs

These phrasal verbs take a direct object:

I look after my sister on Mondays

I look after + my sister on Mondays
 [phrasal verb] + [direct object]

Intransitive phrasal verbs

These phrasal verbs do not take a direct object:

When I grow up, I want to be a firefighter.

When I grow up I want to be a firefighter
 [phrasal verb]

Task 1

Look at the phrasal verbs below in the table with their examples. Decide whether they are transitive or intransitive. (You can find the answers at the end of this section).

Phrasal Verb: Example

1. **Take out** *Please take out the bins before you leave.*
2. **Cheer up** *I need to cheer up my sister because she's crying.*
3. **Come back** *I'm waiting for my mother to come back from the shops.*
4. **Go through** *I went through my father's bottle of cologne.*
5. **Get up** *I get up every morning at 6am.*
6. **Get by** *It was a difficult year and Mrs Calloway lost her job, but they got by.*
7. **Pass out** *She passed out because of the amount of pain she was suffering from.*
8. **Get along with** *He gets along with most people.*

Task 2

Read the following sentences. They are all transitive. Underline the transitive verbs and highlight the direct object.

1. He is so creative; he made up a story for his daughter and her friends.
2. I have to fill out this form so I can go to university.
3. Can you help me hang up this picture?
4. There was a problem with his essay; he had left out a conclusion.
5. The old friends ran into each other on the street.
6. I don't like how she looks down on everyone.
7. We tried on the costumes but we looked awful in them!

8. She takes after her grandmother.
9. My mother says I have to get rid of my old toys.
10. I can't hear anything - please turn up the volume!

You can find the answers at the end of this section.

Separable and Inseparable Phrasal Verbs

As phrasal verbs consist of a main verb, an adverb or preposition or both, these verbs can sometimes be separated. Only transitive verbs (which take a direct object) can be separated.

Separable phrasal verbs

These phrasal verbs, as the name suggests, can be separated:

Turn off the light before you leave.

Turn the light off before you leave.

Only transitive phrasal verbs (which take a direct object) can be separated. However, it is important to remember:

All separable phrasal verbs are transitive, but not all transitive phrasal verbs are separable.

Turn off + the light before you leave.

[Phrasal verb] + [direct object]

Turn + the light + off before you leave.

[PV part 1] + [direct object] + [PV part 2]

Inseparable phrasal verbs

These phrasal verbs, as the name suggests, can't be separated:

He passed away last night.

He passed away last night

[inseparable verbs]

CHAPTER 11

TYPES OF PHRASAL VERBS (PART 2)

Phrasal verbs can be frustrating to learn. They often bear little resemblance to the main verb and there are so many to learn with different meanings.

The best way to learn these is to learn ‘clusters’ of phrasal verbs.

For example, the verb ‘take’:

Phrasal Verb	Transitive/Intransitive? Separable/Inseparable?	Example	Meaning
take after	transitive, inseparable	With my brown eyes and black hair, I take after my mother.	Resemble
take back	intransitive, separable	You need to take this dress back to the shop.	Return
take care of	transitive, inseparable	1. She can't go on holiday; she has to take care of her little sister. 2. He can't afford a holiday; he has to take care of these bills first.	1. Provide care for 2. Accept responsibility for
take off	1. transitive, separable 2. transitive, separable 3. intransitive, inseparable	1. Take your hat off. 2. Holly took the day off because she was ill. 3. The rocket took off.	1. Remove 2. Arrange an absence from work 3. To leave or to depart (quickly)
take up	1. transitive, separable 2. transitive, separable	1. I've decided to take up knitting. 2. James took up two seats.	1. Begin a hobby 2. Occupy space

If you look in a large dictionary, you will be able to see the various phrasal verbs under the main verb. It is a good idea to learn these in groups.

Read the text and underline the phrasal verbs you find. Try to guess the meaning from the text and then check the definitions in the phrasal verb notes below.

If you are single and you like someone who is also single, you might think about chatting him or her up, or flirting with them, which is very similar. When you chat someone up, it shows that you are keen on that person. It's often a good idea to ask the person out if you think that he or she is also keen on you. If you are going out with someone and you go off him or her, then after a while it might be a good idea break up or split up.

Splitting up with your partner is often a good idea if you think that you will both be happier outside of the relationship.

However, if you normally get on like a house on fire and you have a lot in common, it might be a better idea to work through your problems so that you can be happy together and that way you don't need to split up.

Phrasal Verb Notes:

To chat someone up is to flirt with them as you speak. The objective is to get to know the person better in a romantic way.

When you are keen on someone you like them and you are attracted to him or her.

Ask someone out is to invite someone for dinner, to the cinema or to an event when you are attracted to that person and you want to get to know him or her better.

To be going out with someone is a stage of romantic relationships where two people meet socially, each with the objective of evaluating the other person's suitability as a prospective partner in an intimate relationship or marriage

To go off someone is when you stop liking that person.

To split up or break up with someone is when you stop a relationship with a person.

To get on, get along or get on well with someone is to have a good relationship with that person. It can be romantically or as friends.

To get on like a house on fire is to have an excellent relationship with someone. It can be romantically or as friends.

To have a lot in common with someone is when your personalities, experiences or objectives in life are similar. This builds a good basis for a good relationship.

BONUS CHAPTER: FORMAL VS INFORMAL LANGUAGE

SIX Quick Rules of Formal VS Informal:

1. We tend to understate our feelings and would say I was rather disappointed or I was somewhat surprised instead of saying how we really felt.
2. For the same reason, we do not use exclamation marks.
3. We often use the passive to emphasize the action when the person is of less importance
4. We avoid contractions in formal letters.
5. We use formal equivalence of idiomatic language and phrasal verbs
6. Particular sentence structures can be used to create a formal tone. Inversion is one example of this “Although we were offered an alternative dish, when it was delivered to the table it was cold again”.

Exercise 1:

Rewrite the following sentences using formal equivalents for the phrasal verbs. Use a dictionary if necessary. You might need to make other changes to the structures.

1) I'm so chuffed that you've been talked into coming to the meeting.

.....

.....

2) The football club's facilities have been done up, so this should make our performances better.

.....

.....

3) As our town is quite cut off, perhaps we could arrange for you to be put up in a hotel in the city for a few days.

.....

.....

4) We will make up for the inconvenience of having to wait for so long.

.....

.....

Answers:

- 1) *I am very happy that you have been convinced to attend the meeting.*
- 2) *The football club's facilities have been refurbished, which should improve our performances.*
- 3) *As our town is quite isolated, we could arrange hotel accommodation in the city for a few days.*
- 4) *We will compensate you for the inconvenience of having to wait for so long.*

Formal VS Informal Language List:

It is vital that you can distinguish between formal and informal language in English, not only for this exam, but also for life in general. Writing a letter or email to a friend is obviously not the same as writing a letter of recommendation for a friend who has applied for a job.

Here are some examples of formal and informal words with the same meaning,

FORMAL

INFORMAL

to retain	keep
to cease	stop
to function	work

96. Don't drop **a** before hundred.

Our family has lived here for a hundred years. (NOT ... for hundred years.)

The factory is about a hundred miles west of London.

97. If you can't see or find somebody, they are **nowhere to be seen/found**.

When I went back to the car park, my car was nowhere to be seen. (NOT ... my car was nowhere to see.)

The children were nowhere to be found. (NOT ... nowhere to find.)

98. We don't normally use **might** to talk about past possibility.

I felt very hot and thirsty. Perhaps I was ill. (NOT ... I might be ill.)

I saw a girl going into Peter's house. Maybe it was Jeanne. (NOT ... It might be Jeanne.)

99. We use **beat**, not win, to say that one person defeats another in a game, fight etc.

My girlfriend beat me at poker last night. (NOT My girlfriend won me at poker last night.)

Aberdeen beat Bristol 3-0.

100. We use **even**, not also, to add surprising information.

They were all asleep, even the guard dog. (NOT ... also the guard dog.)

Everybody was in time, even Granny. (NOT ...also Granny.)

101. **Was vs. were**

"If I were rich, I'd buy lots and lots of shoes." (NOT ... If I was rich

This mistake is so common among native speakers of English that it is commonly acceptable to say was and it is even quite possible that the examiners won't notice.

If what you're saying is hypothetical, then you need to use were. If you've used "if," that's a pretty good indicator that were is appropriate.

"I wouldn't go there if I were you."

(You're not me, so it's subjunctive)

or

"If I were at home right now, I'd be watching a film."

Rewrite the information below in 3 or 4 sentences. You must decide how the ideas are logically related and then use a marker or conjunction (coordinating or subordinating) to match your meaning.

Learning French is not easy. Many people would argue that learning Spanish is harder.

French and English share a lot of similarities in their vocabulary. French and Spanish both have different articles for masculine and feminine nouns. You have to change the endings of adjectives to match the nouns. This is hard for speakers of English. English does not use adjective endings.

Most people believe that speaking English helps you to start learning French and Spanish. When you have passed the basic stages, English is less helpful. At an advanced level of Spanish and French, knowing English is arguably not very helpful.

CHAPTER 19.

HOW TO LEARN THOUSANDS OF WORDS IN ENGLISH IN ONLY 6 MONTHS

Do you spend a lot of time and effort in learning vocabulary but still find difficulty using it when required? Have you spent a lot of time memorizing vocabulary words but forget them when you need them the most? Don't worry if you answered a big resounding "YES" to any of these questions because you are not alone. There are a number of useful tools, methods, and exercises which will have you not only remembering, but using your extended vocabulary with minimal effort. Let's get started!

Use Mnemonic Devices

What are mnemonic devices? Well they include a variety of techniques and methods that help remember or recall information.

FANBOYS

For example, many students often need to recall the conjunctions used in English grammar. Remembering FANBOYS is a good tool to recall these words (For, And, Nor, But, Or, Yet, So). The best part of this is you can use your creativity to make it interesting and different. You could create a song out of the words, similar to what many children do when they learn names of countries and capitals. Finding some words that rhyme together would give your song some rhythm, so get creative and don't be afraid to try something a bit silly. Silly is good because it helps the brain remember.

Tongue twisters

Tongue twisters are a fun way of practicing sounds, and this repetition of sounds creates another type of rhythm: *Silly Sally sat by the seashore collecting seashells.*

This can be done with words that begin with the same sound or even have similar sounds within or at the end of a word. It can create an interesting beat or jingle which helps you remember easily and quickly.

Teach it to the mirror!

One of the best and easiest ways to remember anything is to teach someone else. If you can't teach someone else, then teach yourself in the mirror!

Share your knowledge. In order to teach vocabulary to someone else, you need to have a good grasp of the word and the many contexts in which it is used. In fact, if you refer to a dictionary you may find that there are multiple definitions related to the word itself. Before teaching, it's important to study and thoroughly understand the word first. Look for sentences that contain that word so you can understand how it can be used with other words for meaning. Practice making your own sentences as well. Encourage the "student" to ask questions for understanding and clarity.

Make it a part of your daily routine

Now it's important to use what you have learned. As the saying goes: "If you don't use it, you lose it." The first step here is to look for ways to use the new words.

Notecards or post-it notes

Notecards or post-it notes are useful as they are handy. You can stick post-its anywhere as a reminder. Just write the name, short definition, or even a sentence as an example. Here's what your notecard could look like:

Impart: to make known

Synonyms: tell, disclose

Sentence: Teachers impart knowledge to their students.

Learn Suffixes

Suffixes are word endings that may change a word's meaning. They can be used to change a word so that it maintains the rules of grammar. Consider the following sentences

It is a tradition in Chinese culture to eat using chopsticks.

The older generation is more traditional than today's youth.

The wedding ceremony is traditionally conducted by a priest.

Learning suffixes and how they change words is a useful tool. With the suffix -ally, as in "traditionally", it is understood that we are using an adverb describing an action. The -tion in "tradition" makes it a noun, so it's often placed at the beginning of a sentence. Understanding placement of words will help you make sure sentences are grammatically correct.

Read, Read, and Read!

Today's fast paced lifestyle makes it challenging, if not impossible, to make the time to read. However, for increasing English vocabulary, it's absolutely essential. Read what you enjoy reading in your own language but read it in English! If you like music, read about music, if you like business, read business!

The 30 minute Rule

The 30 minute Rule states that thirty minutes of pleasurable reading every day will lead to amazing results in your level of English over time. 'Thirty minute readers', people who read for fun for at least 30 minutes per day, tend to have a vast vocabulary. Furthermore, several studies have suggested that the health benefits can be considerable: living longer, increasing IQ, and reducing stress among other perks. Over time, reading regularly can also increase vocabulary and make it easier to utilize these words in practical and functional situations.

Don't worry if you can't find the time in a busy lifestyle to pick up a book to read.

Look for friends or colleagues who enjoy reading. Often times, interacting with bookworms or avid readers will help you pick up vocabulary or new expressions from them. Don't hesitate to ask about anything that is unfamiliar.

Read Newspapers

A newspaper is a very valuable tool that has a wealth of information at your fingertips. Whether it's the paper version or the electronic version, it doesn't matter. Newspapers are a tool which will spark curiosity and encourage you to read more about a variety of topics.

Spend time interacting with expert professionals in various fields if you can.

That doesn't mean you need to spend time at colleges or universities. Expand your field of awareness and interest to connect to those outside your circle of

friends and colleagues. You can join various chat forums or groups in social media. Learn new vocabulary and subjects. You will definitely see the difference.

Download a dictionary app

Anyone who wants to improve their vocabulary really must download an app to their phone. It's not at all practical to lug around a dictionary. A dictionary app on a smartphone can be accessed quickly. Also, being familiar with some online tools that give sentence examples using the words in different contexts is extremely useful. Remember that words fit together in sentences based on their meaning, so it's important to always understand the context or surrounding words so that the sentence or expression makes sense.

Record sentences and structures in your notebook, never single words

NEVER write a single word followed by a definition in your notebook! Always add an example sentence and pay attention to the original sentence where you saw this word. English words can often change meanings depending on the prepositions they go with or the type of sentence they are in.

For example:

He was turned away at the door because he was wearing trainers.

Meaning: He was rejected

He turned away when I tried to speak to him because he was very angry.

Meaning: He looked the other way or turned his head towards a different direction so he didn't have to look at me.

Make it fun!

Learning new English vocabulary words doesn't have to be a chore! Find ways to make it fun, interesting, and rewarding. Download a few gaming apps that focus on building or using vocabulary words. A common one is "Words with Friends" where you get to share and learn new words with your own circle of friends. Try it! You will see the results.
